My Internship at Talent Engines

Alabama Data Scholars Program

Reagan LeDuke

TALENT ENGINES

LIFE IS RELATIONAL

About Me

- Rising Senior at Marion County High School
- Interested in Data Analytics and Business
- Future goals: exploring data/business/tech fields
- Hobbies: Running, Beta Club, Golf, Photography
- Interned with Talent Engines, mentored by Michael Connolly

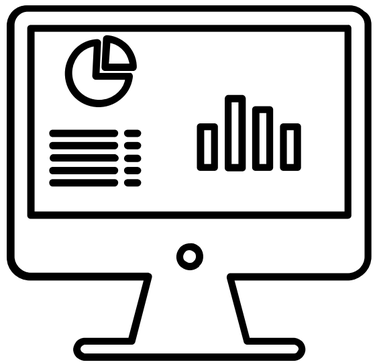

Project Overview

Projects

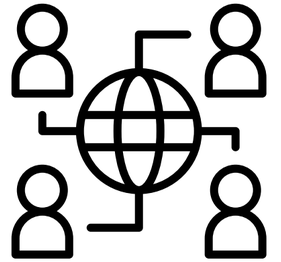

- Researched and defined KPIs
- Cleaned & uploaded data from a database
- Investigated legal hiring databases
- Drafted support tickets for Bullhorn

Tools/Skills

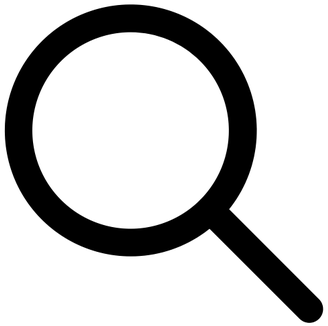

- Bullhorn (CRM system)
- Excel/Google Sheets
- Communication tools: Slack, Zoom, Calendar

Lessons Learned

- Learned how to manage my time as a student, employee, and teenager
- Gained confidence using professional tools (Slack, Zoom, CRM platforms)
- Saw how KPIs connect data to business goals
- Built comfort with asking questions and working in a virtual team

Looking Ahead

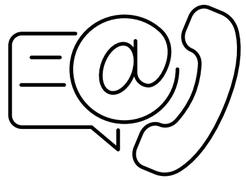

- I now see how business data supports real decisions
- More interested in careers that blend people + data
- Inspired to explore business intelligence, maybe even consulting
- This helped me understand how to be more professional and organized

TALENT ENGINES

LIFE IS RELATIONAL

Thank You!
